How To...

Draw A 3D Hand

Materials

Paper
Pencil
Markers

Procedure

1. Lightly trace your hand and a bit of a wrist using a pencil
2. Using a marker, draw a straight line across the paper, stopping at the outline of your hand
3. Draw a curved line from one side of the hand outline to the other
4. Draw a straight line from that point to the edge of the paper
5. Repeat steps 1 through 4 all the way up the hand outline
6. Repeat steps 1 through 5 with different colored markers
7. Add shadows to the outline of the hand to make the 3D effect more visible
