How To...

Glowing Salt and Ice

Materials

- Water
- Disposable tins
- Salt
- Fluorescent paint
- Pipettes
- Disposable cups
- Blacklight

Procedure

1. Fill disposable tins with water
2. Put tins in freezer until water is frozen solid
3. Mix water and fluorescent paint in disposable cups
4. Remove ice blocks from freezer and cover them with a thin layer of salt
5. Use a pipette to squirt flowing water over the blocks of ice
