How To...

Lava Lamps

Materials

- Oil
- Water
- Glow in the dark paint
- Long handled spoon
- Alka-Seltzer tablets
- Tall, clear container

Procedure

1. Pour one part water into the tall container.
2. Add glow in the dark paint to the water, and stir to combine.
3. Slowly add two parts oil to the container.
4. Drop an Alka-Seltzer tablet into the container with the water and oil.
5. Watch the mixture bubble like a lava lamp!
