How To...

Microwave Cake

Materials

- Box cake mix
- Whipping siphon
- Nitrous oxide chargers
- Scissors
- Paper cups
- Cooking spray
- Microwave

Procedure

1. Prepare the batter as instructed on the box
2. Use scissors to cut a few vertical cuts in the bottom of each paper cup
3. Spray the cups with cooking spray
4. Pour half of the cake batter into the whipping siphon
5. Charge the batter with two nitrous oxide canisters
6. Siphon the batter into the cups until they are a quarter of the way full
7. Cook one cup at a time for one minute on high power
8. Invert each cup on a plate and allow to rest for a few seconds
9. Tap the cup on the plate to release the cake
10. Repeat the process with the remaining batter
