**How To...**

**Magnetic Slime**

---

**Materials**

- Strong Magnet
- Liquid Starch
- Elmer’s Glue
- Iron Oxide powder
- Bowl
- Measuring spoon
- Measuring cup

---

**Procedure**

1. Pour 1/4 cup of liquid starch into a bowl
2. Add 2 Tbl of iron oxide powder and mix well
3. Add 1/4 cup of glue and stir
4. Remove the slime from the bowl. There will be liquid left in the bowl
5. Let the slime dry a bit
6. Use magnets to play with the slime
