How To... Panning for Gold

Materials

- Rocks Painted Gold
- Small, Plastic Pool
- Water
- Sand
- Gold Pan

Procedure

1. Add gold painted rocks to the small, plastic pool.
2. Cover with a layer of sand.
3. Fill halfway with water.
4. Using the gold pan, scoop up some of the sand and rock mixture.
5. Move the pan from right to left, letting the sand fall back into the pool.
6. If you were lucky, you should be left with gold in the bottom of your pan!
