How To...

Rubber Egg

Materials

At least 16oz Vinegar
2 glasses or cups
Raw eggs

Procedure

1. Place egg in cup
2. Fill cup with vinegar to cover egg (it is okay if egg floats a bit)
3. Wait 12-24 hours for most of the egg shell to be removed
4. After 24 hours remove egg from vinegar by catching with your hand (using a spoon can damage or break your egg.
5. Remove shell by rubbing egg with your fingers.
6. Refill cup with vinegar and soak egg for 24 more hours
