THE DANCE PROGRAM AT PVCC

dance

Whether your goal is to pursue dance as a career, or simply to develop your talents in dance and performance, PVCC can offer you an enriching experience and prepare you for careers in the field of dance with an Associate of Arts degree in Dance.

Dancers can pursue many career opportunities beyond performance, including choreography, education, health and wellness, studio management, production and promotion. Some careers require an undergraduate degree for entry level positions, but most will need appropriate postgraduate degrees, certifications, specific skills and/or experience. The Associate of Arts degree in Dance provides a great foundation for pursuing additional education in your field, as well as an opportunity to study what you love.

Students with specific career goals should meet with a dance advisor for detailed information about the requirements unique to their chosen fields.
