In committee discussion and recommendations, the following points of data will be gathered by Michele to be presented at the Oct. meeting: a) research on Business Communication class to determine if it could/should be added to the course options, b) solicit Inst. Effect. Office for data on # of students who have completed or are currently enrolled in 2 or more “G” designated courses, c) solicit Inst. Effect. Office for data on # of students taking a world language or those who are world language majors. The committee will review this data to determine if the Scholars pilot should be extended to PVCC. Marketing recommendations for hosting the pilot, if need/interest is determined, write and send letters to students who have completed 2 or more “G” designated courses, world language students, global health students, and integrated health students apprising them of the Scholars program and note that according to their transcript and/or major they are already on the pathway to completing the program provided one or two additional program requirements are met.
